Society of Women Engineers swe.purdue.org

The **Society of Women Engineers (SWE)** student section was founded at Purdue in 1954, as a nonprofit, educational service organization. Since then, its goals have grown to encompass the recruitment, retention, and placement of women engineers in school and in the workplace. SWE provides opportunities for students to enhance their professional, technical, and leadership skills while making important contacts in industry and making lifelong friends on campus.

Awards Programs

Each of the organizations hosts a separate awards program to recognize outstanding academic and leadership achievements by engineering students. These awards are made possible solely by corporate contributions. Through the award recognition programs, chapters recognize and encourage continued success among their members and engineering students. If your company wants to sponsor an award, please complete the form below and return it by February 21, 2014.

Society of Women Engineers Sponsorship Reply Form

Yes, we want to sponsor awards.

Company name _____

(As it should appear on the list of awards and certificates)
