

TWO-WEEK BOOTCAMP

JOB INTERVIEW IN THE AI-ERA: CODING, SYSTEMS, AND AGENTS

SUMMER 2026 - REGISTER NOW

This two-week program targets individuals preparing for coding interviews by studying the structure and questions of a typical coding interview process.

Topics Include:

- Python and Object-Oriented Programming
- Data Structure and Scalability
- Memory and Complexity
- AI Agents: From Design to Usage
- Machine Learning System Design
- Job Interview Skills
- Breaking Problems Down
- Talking to Your Interviewers
- Timed Programming Exercises

Supported by the Think AI Purdue Engineering Initiative
