

THE ENGINEERING SUCCESS CENTER

# ***MISSION MODULES: ENGINEERING CONCEPT WORKSHOPS***

Students can strengthen problem-solving skills and overall confidence. The series is designed to bring engineering students and faculty together for an in-depth exploration of challenging concepts related to the subject course. The interactive setting thrusts students beyond the classroom lecture materials, creating a space for open dialogue, hands-on problem-solving and connection to real-world engineering applications.

## **ME 200 - THERMODYNAMICS**

***Facilitated by:***  
***Professor Beth Holloway***

***Time: 6:00 - 7:30 PM***

***Spring 2026 Dates:***  
***Wednesday, Feb. 11, 2026***  
***Tuesday, Mar. 3, 2026***  
***Wednesday, Apr. 8, 2026***

***Location: LMBS 3239***
