

# CYBERINFRASTRUCTURE SYMPOSIUM

## Purdue Computing for Science: Applications, Challenges, and Ethics of AI Simulation

11:30 AM – 5:00 PM  
DLR 131. Purdue University

OCT  
23

As artificial intelligence becomes increasingly embedded in our research, decision-making, and institutions, how do we ensure it reflects our shared values? Join us for a half-day symposium where we'll explore the intersections of collective intelligence, AI ethics, responsible research, and governance, and hear about how RCAC is supporting faculty and AI research.

Register Today and help shape the future of AI.
