**Student Lab Assistant Needed –**
**Work in Dr Kola Ajuwon’s Lab** [https://ag.purdue.edu/ansc/Pages/Profile.aspx?strAlias=kajuwon](https://ag.purdue.edu/ansc/Pages/Profile.aspx?strAlias=kajuwon)

The appointed student will provide assistance with lab upkeep. This involves working to ensure lab supplies and consumables are available, helping with lab clean up and organizing of lab environment, ordering of reagents and supplies.

Students will also be introduced to lab and farm based research and may be requested to assist with those as well. These research activities may involve working with animals at the farm or other laboratory based experiments and analyses. A student may be given their own research project in the lab when they have demonstrated acceptable level of competence and familiarity with lab procedures.

Hours are flexible and we try to work around the student’s schedule. Interested students should contact me ([kajuwon@purdue.edu](mailto:kajuwon@purdue.edu)).

**Kola Ajuwon, Ph.D.**
Professor, Department of Animal Sciences
