Hi Nate,

Sean Liu, the Research Leader of our Functional Foods Research Unit just released an ad for 4 positions. This is the first time I have ever seen four positions recruited at once! Basically they are looking for someone with an undergraduate or master's degree in either chemistry, biological, or food related fields. Candidates with master degrees are eligible to start at a higher salary level. The person already needs to have graduated. While someone with an engineering degree would be eligible, the positions generally do not pay high enough to attract engineers. However, thought it would be worthwhile to let you know because your connections with the food science department and/or someone looking to locate in Peoria.

Sincerely,  
Bruce

### Summary:

Positions: technician position related to food and national products research

Education: a degree in Biology, Chemistry, Food Science, Biochemistry, Physical Science, or related degree

**Deadline for Application: 11-15-2023**

Research Unit: Functional Foods located within the National Center for Agricultural Utilization Research Center (NCAUR), which is a USDA research center

Other: Civil Servant positions with full Federal Benefits (citizenship requirements)

Where to apply: [USAJOBS - Job Announcement](#)

Location: Peoria, IL (Central IL)

Sincerely,

Bruce Dien

Bioenergy Research, NCAUR, Peoria, IL
