

Hello Purdue Friends,

You may have heard, but Madison is leaving us for the Rocky Mountains. We've already started accepting applications for someone to take her spot as the environmental / recycling educator for WREC and Solid Waste. If you know of any alumni that would be a good fit, please feel free to pass along the attached announcement and the below link to apply. We're trying to move quickly to fill her position so they should apply asap if they're interested.
