As a world leader in protein production, our operations are vital to ensuring we can meet the needs of our customers around the world.

Our Operations Management Interns help ensure operations run smoothly by minimizing risk, managing talent and constantly improving operational efficiency so we can continue nourishing the world in a safe, responsible and sustainable way.

Gain experience in leading, coaching and developing a diverse team of operations employees.

Understand plant operations to effectively and efficiently achieve business objectives.

Experience risk management by becoming a leader in safety, quality, regulatory compliance and Cargill’s Guiding Principles.

Explore production-based continuous improvement opportunities to ensure we are capable of meeting customer needs.

TO APPLY: CARGILL.COM/CAREERS

JOB ID - 135482
Cargill Protein - North America produces, distributes and markets beef, turkey, chicken and egg products to retail, foodservice and food manufacturers throughout North America, and exports meat and by-products around the world. Our 28,000 employees, and more than three dozen processing facilities in the U.S. and Canada are focused on delivering products and services that meet consumers’ evolving preferences and needs to help our customers thrive.

PROGRAM EXPECTATIONS

• Opportunity to learn through a 12-week rotational training program
• Experience through cross-functional learning in departments including operations, environmental, health & safety leadership, engineering and maintenance, accounting, continuous improvement and much more
• Opportunity to supervise a team of stakeholders and gain an in-depth understanding of what a day in the life of a production supervisor entails
• Exposure to leadership experiences across multiple productions shifts including 1st, 2nd and 3rd
• Leadership experience through managing teams during 8-10 hour workdays, and weekends as required

The goal of this program is to prepare the intern to promote into an Operations Management Associate role at any of our production facilities following graduation.
