

# Find your place with the **Future Talent Rotational Program** at Merck Animal Health!

The Merck Animal Health Future Talent Rotational Program (FTRP) exposes students to the commercial, manufacturing, and research & development segments of the animal health industry through a unique cohort experience.

This part-time position will allow four current undergraduate students to complete three 5-month rotations as part-time employees during the academic year (~20 hours/week) and summer 2024/2025 (~40 hours/week). This opportunity can expose you to diverse career opportunities in the animal health sector, gain real-world experience across the industry, set long-term career goals, and develop as a professional.

## RESEARCH & DEVELOPMENT ROTATION

May 2024 - September 2024

## COMMERCIAL OPERATIONS ROTATION

October 2024 - February 2025

## MANUFACTURING ROTATION

March 2025 - June/July 2025

*\*Tentative rotation schedule. Subject to change based on various business factors.*

## Benefits for FTRP Associates

- Gain a greater understanding of the animal health industry
- Access to diverse business groups through rotational projects
- Mentorship from leaders and team members from across the enterprise
- Hands-on learning from a global leader in the industry building upon your school coursework
- Tangible experiences for résumé building and career planning
- Financial support as a paid part-time employee
- Real-world personal and professional development in a cohort setting
