Hello Partners in Education,

I'm excited to announce that the Habitat Specialist (Wildlife Bio-adv) and the DMAP Biologist (Wildlife Bio-sen) positions are now open on [wisc.jobs](https://wisc.jobs). **The positions close Nov. 2.** Please share

these announcements to possible candidates. These positions will also be posted on Handshake for those who use Handshake as their preferred job posting website.

**Habitat Specialist**      [Careers \(wi.gov\)](#)

-

This is fantastic opportunity for someone who wants to take their knowledge of habitat management to a statewide scale and help design and implement the next chapter of habitat management within the WM Program. Specifically, this position is responsible for development of wildlife management program policies that direct the management of priority habitats on state wildlife areas, private lands, and other public lands across the state. Responsibilities include establishing habitat management strategic priorities for the wildlife program, delivery of services to field staff, staff training, developing budget requests, planning habitat management operations, coordinating, and developing related habitat IT systems, and assisting with annual reporting of accomplishments.

**DMAP Biologist**      [Careers \(wi.gov\)](#)

Do you like assessing lands for habitat needs, working with private landowners, and developing habitat management plans? This position could be your dream job! The DMAP position is responsible for the planning, coordination, and implementation of the Deer Management Assistance Program (DMAP) and other private land habitat initiatives in the assigned area. The primary work of this position is meeting with land stewards on their properties and developing habitat management projects and management plans. It's about collaboration and partnerships.

We currently have approval to fill one DMAP vacancy but fully expect to fill two positions from this recruitment.

Please reach out if you have questions and would like to discuss.

Sincerely,

Bret Owsley

**We are committed to service excellence.**

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

**Bret Owsley**

Wisconsin DNR

Southern District Wildlife Supervisor
