Safety Data Sheet

Original Preparation Date: 17-Sep-2013
Revision Date: 12-Oct-2017
Revision Number: 2

1. Identification

Product Name: Refined, Bleached and Deodorized High Oleic Soybean Oil
Use of the Substance / Preparation: Food Ingredient

Product Code: 780700

Contact Manufacturer:
Archer Daniels Midland Company
4606 Farias Parkway
Decatur, IL 62526, USA
Telephone Number: (+1) 217-424-5200

Emergency response telephone number:
Chemtrec 1-800-424-9300 (CCN 1635)

2. Hazard(s) Identification

Emergency Overview
Spontaneous combustion (fire) may result from oil soaked materials such as rags, steel wool, paper, and clothing. Place soaked materials in a sealed, metal container to prevent this. The product contains no substances which at their given concentration, are considered to be hazardous to health.

Appearance
Light yellow to Yellow
Physical State
Liquid
Odor
Slight Vegetable oil

This product is NOT classified as hazardous according to the criteria contained in the Hazard Communication Standard 29 CFR 1910.1200 (known as HCS 2012) or the Hazardous Products Regulations SOR/2015-17 (known as WHMIS 2015). However, vegetable oil (in mist form) is known to be listed as an OSHA 29 CFR 1910.1000 Air Contaminant. Occupational exposure limits are subsequently provided in section 8 of this SDS.

3. Composition/information on ingredients

4. First-aid measures

**Description of first aid measures**

**Eye Contact** Rinse thoroughly with plenty of water, also under the eyelids.

**Skin Contact** Wash off with warm water and soap.

**Inhalation** Move to fresh air.

**Ingestion** No special measures required. Health injuries are not known or expected under normal use.

**General Advice** No hazards which require special first aid measures. When symptoms persist or in all cases of doubt seek medical advice.

**Most important symptoms and affects, both acute and delayed**

**Eyes** Not expected to pose health issues for the eye.

**Skin** Prolonged or excessive contact with skin may result in mild irritation, however, significant health injuries are not expected under normal use.

**Inhalation** Health injuries are not known or expected under normal use. When in the form of an airborne mist, refer to section 8 of this sheet for exposure limits pertaining to "vegetable oil mist". Excessive inhalation of mist may result in respiratory irritation.

**Ingestion** Health injuries are not known or expected under normal use. Over exposure may cause: Gastrointestinal disturbance.

**Indication of any immediate medical attention and special treatment needed**

**Notes to Physician** Special forms of treatment and immediate medical attention are not specified. Treat Symptomatically.

5. Fire-fighting measures

**Flammable Properties**
Material may pose fire hazard because it is dispersed (or spread) by water.

**Extinguishing media**

**Suitable Extinguishing Media** Dry chemical. Dry chemical powder. Carbon dioxide (CO₂) Foam. Sand. Fog. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

**Unsuitable Extinguishing Media** Do not use a solid water stream as it may scatter and spread fire.

**Special hazards arising from the substance or mixture**

**Hazardous Combustion Products** Thermal decomposition can lead to release of irritating gases and vapors, Acrolein, Carbon monoxide (CO), Carbon dioxide (CO₂), Smoke, Fumes. Risk of ignition. Rags and other materials containing this product may heat and spontaneously ignite, if exposed to air. Store wiping rags and similar materials in metal cans with tightly fitting lids. Cool closed containers exposed to fire with water spray.

**Specific Hazards Arising from the Chemical**

**Sensitivity to mechanical impact** No information available.

**Sensitivity to static discharge** No information available.

**Advice for fire-fighters**

**Protective Equipment and Precautions for Firefighters** As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

**NFPA**

- Health 0
- Flammability 1
- Stability and Reactivity 0
- Physical hazard None known
6. Accidental release measures

**Personal Precautions, Protective Equipment, and Emergency Procedures**
Avoid high pressure washing or generation of aerosols. Material can create slippery conditions.

**Environmental Precautions**
Prevent further leakage or spillage if safe to do so. Do not allow product to reach soil, sewage system or any water course.

**Methods and Materials for Containment and Cleaning Up**
Dam up. Soak up with inert absorbent material. Use dry spill kit material or sand, collect in appropriate containers. For disposal information see section 13. Clean contaminated surface thoroughly.

**Other Information**
Oil soaked materials may spontaneously combust.

7. Handling and storage

**Handling**
Ensure adequate ventilation. Do not use pressure to empty drums. Keep away from open flames, hot surfaces and sources of ignition.

**Storage**
Keep in a cool sheltered place. To maintain product quality, do not store in heat or direct sunlight.

8. Exposure controls/Personal protection

**Exposure Limits**
When in the form of an airborne mist containing vegetable oil, observe the OSHA and ACGIH established limits for "vegetable oil mist". OSHA PEL: [15 mg/m³ (mist) 8-hr TWA], [5 mg/m³ mist (respirable) 8-hr TWA]. ACGIH TLV: [10 mg/m³ (mist) 8-hr TWA].

**Biological Limit Values**
No biological limit values have been listed for the component(s) of this product.

**Appropriate Engineering Controls**
Ensure adequate ventilation, especially in confined areas. Apply technical measures to comply with the occupational exposure limits.

**General Hygiene Considerations**
Handle in accordance with good industrial hygiene and safety practice.

**Personal Protective Equipment**

- **Eye/face Protection.**
  If exposed to airborne mist, or if splashing is possible, appropriate safety glasses with side-shields or safety goggles are recommended. Oil resistant gloves are recommended. Appropriate body protection should be selected based on activity and possible exposure. Also take into consideration the specific local conditions under which the product is used.

- **Skin and Body Protection**
  In case of mist, spray or aerosol exposure wear suitable personal respiratory protection.

- **Respiratory Protection**
  In case of mist, spray or aerosol exposure wear suitable personal respiratory protection.
9. Physical and chemical properties

- **Appearance**
  - Light yellow to yellow
- **Physical State**
  - Liquid
- **Odor**
  - Slight vegetable oil
- **Odor Threshold**
  - Not applicable
- **pH**
  - Not applicable
- **Flash Point**
  - Approx. 325 °C / 617 °F
- **Autoignition Temperature**
  - Not auto-flammable
- **Boiling point**
  - Not applicable
- **Melting/Freezing Point**
  - No information available
- **Decomposition temperature**
  - No information available
- **Oxidizing Properties**
  - Not expected to be oxidizing
- **Water Solubility**
  - Insoluble
- **Solubility(ies)**
  - Soluble in many organic solvents
- **Evaporation Rate**
  - < 1 [Butyl acetate = 1.0]
- **Vapor Pressure**
  - 0.5 mmHg at 308 °C / 586 °F
- **Vapor Density**
  - No information available
- **Specific Gravity / Relative Density**
  - No information available
- **Partition Coefficient**
  - (n-octanol/water)
  - No information available

10. Stability and reactivity

- **Stability**
  - Stable under normal conditions.
- **Possibility of Hazardous Reactions**
  - None under normal processing.
- **Conditions to Avoid**
  - Keep away from open flames, hot surfaces and sources of ignition.
- **Incompatible Materials**
  - No materials to be especially mentioned.
- **Hazardous Decomposition Products**
  - Thermal decomposition leads to formation of Acrolein. Carbon monoxide (CO), Carbon dioxide (CO2), Smoke. Fumes.

11. Toxicological information

**Information on toxicological effects**

- **Acute toxicity**
  - Based on available data, no evidence of acute toxicity.
- **Skin corrosion/irritation**
  - Based on available data, not, or only slightly irritating.
- **Serious eye damage/eye irritation**
  - Based on available data, no evidence of serious eye damage / irritation.
- **Respiratory or skin sensitisation**
  - Based on available data, not expected to be a skin or respiratory sensiser.
- **Germ cell mutagenicity**
  - Based on available data, the classification criteria are not met.
- **Carcinogenicity**
  - Based on available data, no evidence of carcinogenicity.
- **Reproductive toxicity**
  - Based on available data, no evidence of reproductive toxicity.
- **STOT - single exposure**
  - Based on available data, the classification criteria are not met.
- **STOT - repeated exposure**
  - Based on available data, the classification criteria are not met.
- **Aspiration hazard**
  - Based on available data, no known aspiration hazard.

**Potential health effects**

- **Eyes**
  - Not expected to pose health issues for the eye.
- **Skin**
  - Prolonged or excessive contact with skin may result in mild irritation, however, significant health injuries are not expected under normal use.
  - Health injuries are not known or expected under normal use. When in the form of an airborne mist, refer to section 8 of this sheet for exposure limits pertaining to "vegetable oil mist". Excessive inhalation of mist may result in respiratory irritation.
  - Health injuries are not known or expected under normal use. Over exposure may cause: Gastrointestinal disturbance.
12. Ecological information

Ecotoxicity
Not classified for aquatic toxicity.

Persistence/Degradability
Biodegradable.

Mobility
The product is insoluble and floats on water.

PBT and vPvB assessment
No information available.

Other adverse effects
Nothing specific known.

13. Disposal considerations

Whenever possible, as rules and regulations allow, please recycle or manage materials to minimize waste.

Waste Disposal Methods
Dispose of in compliance with the laws and regulations pertaining to this product in your jurisdiction. Oil soaked materials may spontaneously combust and should be properly managed to avoid ignition and heat sources or oxygen rich environments. Collect and store soaked materials in closed, metal containers to help prevent combustion.

Contaminated Packaging
Empty containers should be decontaminated and taken for local recycling, recovery or waste disposal.

14. Transport information

Domestic transport regulations (USA)
DOT Not regulated

Domestic transport regulations (Canada)
TDG Not regulated

Domestic transport regulations (Mexico)
MEX Not regulated

International transport regulations
ICAO Not regulated
IATA Not regulated
IMDG/IMO Not regulated

Federal Regulations
Ozone Depleting Substances:
No Class I or Class II material is known to be used in the manufacture of, or contained in, this product.

SARA 313
Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product is not known to contain any chemicals which are subject to the reporting requirements of the Act or regulations contained in 40 CFR 372.

CERCLA/SARA 103-302
Sections 103-302 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product is not known to contain any chemicals which are subject to the reporting requirements of the Act or regulations contained in 40 CFR 103-302.

SARA 311/312 Hazardous Categorization
Refer to the OSHA hazard classification(s) provided in section 2 of this SDS.

Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 63)
This product is not known to contain any HAPS.

State Regulations

California Proposition 65
This product is not known to contain chemicals listed under Proposition 65.
