WORKING AT AGRELIANT GENETICS

AgReliant Genetics is a leader in seed research, production, and quality focused on providing trusted seed solutions that help farmers grow. We are one of the fastest growing independent seed companies in the industry, currently ranked as the third largest corn seed company in the U.S. and operate one of the largest research programs in North America.

At AgReliant Genetics, we are dedicated to fostering a diverse and inclusive workplace. At every level, our people are an essential part in maintaining our values and furthering our growth. We pursue individuals who demonstrate commitment, excellence, integrity, safety and innovation in their work.

CORN RESEARCH PEAK-SEASON EMPLOYMENT OPPORTUNITY

We are currently looking for individuals interested in peak-season (summer and fall) temporary employment at our Lebanon, IN research facility to assist with corn hybrid development, including controlled pollinations and data collection.

No prior experience or degree is needed. Workers will receive a competitive wage, training and regular feedback.

Our peak-season starts around the second week of July and goes through the first week of August. A few individuals will be needed before and after those dates. Selected workers, who are available, will also be asked back in the fall and to help with harvest and packaging seed.

Peak-season hours are generally 8a.m.-4p.m. Monday-Saturday. Start and end times may vary depending on weather conditions.

Responsibilities & basic qualifications:

- Legal residency required
- Background check required
- Availability to be reliable and punctual, including Saturday hours
- Willingness to follow directions carefully and adhere to all safety rules
- Ability to work well independently and with team members in a professional and respectful manner
- Ability to maintain the highest level of confidentiality, customer service and professionalism that promotes a positive image of the company and the research department
- Ability to work outdoors including sun exposure and walking through corn fields (standard breaks and water breaks provided)
- Ability to lift 50 pounds

Compensation: First year workers who are in high school will earn $9.50/hour. Returning workers, college students, and those with college degrees earn more and will be discussed individually.

How to apply: Applications can be picked up Monday-Friday between 8a.m.-4:30p.m. EDT at our research facility located at 4640 E. St. Rd. 32, Lebanon, IN. (This facility is located three miles East of Lebanon on the North side of the road).

If you have any questions, please give us a call at (765) 482-9833.
