

Summer Internship / Research Crew

CRD Advisors LLC is a privately owned, contract corn research testing and corn breeding company, located NE of Springfield, IL.

CRD Advisors LLC is currently seeking applicants for summer positions and internships in the Research Department. These positions will provide a unique opportunity to learn about the agriculture industry from a research and breeding company. The internship will provide a basic understanding of the corn breeding and research industry. Major duties will include working in the corn breeding nursery developing new parent inbred lines and assisting with corn hybrid yield trial plot observations.

Summer Research Crew positions can last up to three months and include activities like hand pollinating in nursery blocks, plot maintenance, stand counting of yield trials at home and away locations, and field notes. Plan to work 20-40 hours per week during June and August, 30-40+ hours per week in July and some weekends. The start and end dates vary based on weather, type of position and location.

Individuals interested in any of these positions must meet the following job requirements to obtain summer employment or internships:

- Willingness to work 40 or more hours per week, including some weekends.
- Ability to work around corn, and other crops, pollen, and dust.
- Ability to walk and stand for long periods of time.
- Willingness to work outdoors, in a variety of conditions.
- Must be self-motivated and possess a positive attitude.
