

Equestrian Cabin Counselors/Barn Staff

Camp Tecumseh YMCA is looking for individuals who love working with horses and kids for a great summer camp job. Equestrian Cabin Counselors live in a cabin with one other counselor and 9-11 campers. The counselors are responsible for the supervision, planning and mentorship of the campers in their cabin. In the mornings, the counselors and campers are at the barn working on riding as well as ground school activities (grooming, tacking, general horse knowledge and care). Two afternoons a week are also spent at the barn continuing these activities. The other afternoons are spent doing "traditional camp activities" which might include swimming, games/competitions with other cabins, all-camp activities, sleepouts, etc. This position starts on May 26 and runs through August 10.
