Join us in nourishing the world in a safe, responsible and sustainable way.

A customer and consumer-centric business, Cargill’s North American Protein business focuses its wealth of industry expertise and capabilities, innovation, research and development, consumer insights and product support to deliver protein solutions that offer distinct value to help its customers grow.

Join us, and our more than 28,000 team members, in our commitment to people, agriculture and creating a positive food culture. We focus on product quality, employee safety, food safety, animal wellbeing, environmental impact, improved sustainability and community engagement as we strive to nourish the world in a safe, responsible and sustainable way.

Primary Responsibilities

- Lead, coach and develop a diverse team of operations employees.
- Manage risk by becoming a leader in safety, regulatory compliance and Cargill’s Guiding Principles.
- Maintain plants to ensure they are capable of meeting customer needs.
- Lead plant operations to effectively and efficiently achieve business objectives.
- Continuously look for opportunities to improve processes in production.

Qualifications

- Bachelor’s degree from an accredited program.
- Willing and able to work weekends and first, second or third shifts.
- Right to work in the U.S. that is not solely based on a student visa or a visa sponsored by an employer.
- Strong written and oral communications skills.
- Ability to work effectively with individuals from diverse backgrounds and cultures and to contribute individually and as part of a team.

Career Path

Launching your career as an Operations Associate can lead to many exciting opportunities in operations management, supply chain, business management, continuous improvement, sales, customer business management and more. We believe in recognizing hard work and innovation, and we are always looking for opportunities to develop employees on a career path they would find rewarding.

Find Your Purpose With Protein.

With over 153 years of experience in 70 countries, we continue to nourish the world in a safe, responsible and sustainable way. Every day, we connect farmers with markets, customers with ingredients, and people and animals with the food they need to thrive.

As a key shareholder group within Cargill’s global organization, Cargill’s North American Protein business is an industry leader in developing solutions to nourish the world with safe, affordable and nutritious protein while enriching the lives of those who work for us and with us. We combine our experience with new innovation to serve as a trusted partner for food, agriculture, financial and industrial customers.
