

Position Title: FSQR Data Systems Coordinator

Brief Description: The Cargill Protein Food Safety Quality and Regulatory team is looking for someone to fill the role of FSQR Data Systems Coordinator. The role will be based in Wichita, Kansas and will work with all proteins (beef, turkey, egg, case ready and cooked products). The position will help turn data into insight and action as Cargill helps the world *thrive*. An ideal candidate would be a critical thinker, understand plant operations and have a drive to utilize technology to improve the manufacturing process. Anyone with questions can reach out to Zach Frazier at zach_frazier@cargill.com. Interested candidates can learn more and apply [here](#) by April 30, 2019.
