In general, we anticipate that interns will work full-time during their semester of employment at CRA. However, CRA is open to accepting candidates who would work less than full-time so they may take classes at a local university. This flexibility is intended to attract candidates from outside the DC-area who may want to take advantage of the many local learning opportunities available while interning at CRA. This arrangement also offers a flexible internship opportunity for student enrolled full-time at a DC-based institution.
