JOB: Research Assistant Positions in Pollinator Health and Insect Ecology

Department of Entomology, Purdue University, West Lafayette, IN

To apply e-mail Laura Ingwell (lingwell@purdue.edu)

Include the following:

1) statement of interest, 2) CV, 3) contact information for three references

Full-time field/laboratory technician positions available starting in May 2018 in the Kaplan/Foster Lab. Research technicians will assist graduate students and post-doctoral scientists. Position activities include data collection on research farms examining herbivory, pollination and soil health.

We are also hiring a full-time Meigs horticultural farm hand, located south of Lafayette, 10 minutes from campus. This person will report to the farm each day and assist with plot maintenance for all of the research activities at the farm.

Technician must hold a valid driver’s license; a vehicle will be provided. Salary: $10/hour.
