Ed Miniat LLC

Company Description
Ed Miniat LLC, a fifth-generation family-owned company, is regarded as the industry leader in Sous Vide cooked proteins serving some of the fastest growing restaurant chains and best known food brands in America. The company has experienced consistent year over year growth resulting in a recently expanded facility and plans for future capacity increases.

At Miniat, we are always looking for new and better opportunities to serve our customers, communities, and stakeholders. We do this through listening, exploring, and formulating solutions. As part of our mission of service, we’re committed to providing employees with opportunities to become their best, continually learn and acquire new skills, provide for their families, and share in the profits of our collective success.

Position Description:
The paid intern positions at Miniat Holdings LLC provide opportunities to work in a hands-on environment and become actively involved in various projects related to your field of study. The Internship opportunities will be available at Ed Miniat LLC, located in South Holland, IL.

Overview of Responsibilities:
You will be asked to become actively involved in projects that may include the analysis of products and processes, research and data gathering, and provide support to manufacturing or administrative departments. You will have the opportunity to demonstrate problem solving abilities provide input and suggestions for improvement to the management team.

You will be expected to participate in weekly meetings with fellow interns to review and update the team on your progress and project involvement. Each week you will assume a new meeting role or responsibility that will allow you to enhance your public speaking and presentation skills.

You will be given the opportunity to interact with various levels of the Miniat staff including members of the Executive and Management team. You will have time to listen to and question them on their stories as they share their knowledge and experiences with you. They will also be expected to provide feedback to you on your presentations and performance.
Minimum Qualifications:

- Two or more years of college course work focusing Food Science, Animal Science (Meat Science), Microbiology, Food Manufacturing Operations, Engineering, Safety, or other related business and manufacturing area of study.
- Strong working knowledge of computers and Microsoft Office applications.
- Able to communicate effectively in verbal and written formats.
