Farm Equipment Operator

Clayton, IN

Edmondson Liberty Farms is a large family-owned grain operation producing corn and soybeans. Both crops are stored on farm and sold to processors and rail elevator locations. Located just 30 minutes west of Indianapolis in Clayton, Indiana, we take pride in our farm land, our crops, and our machinery. We work hard, but value time spent with family and community. Learn more about us at edmondsonlibertyfarms.com

We are hiring for a full-time, year-round, Farm Operator to be an all-around player in our grain operations. You will enjoy working in a variety of roles from running equipment in the field, to working at our grain facilities, to assisting with equipment maintenance.

This role is for you if you

- Have prior agriculture/farming or relatable experience and are comfortable operating heavy equipment
- Have basic mechanical ability and understanding and willing to assist in all areas of the farm
- Have experience mixing herbicides and operating an agricultural sprayer
- Are eager, honest, personable and have a willingness to learn with good communication skills.

We Offer

Compensation highly dependent on experience, qualifications, and education. We offer paid vacation, performance bonuses and possibility of company vehicle.

What you would be doing

- Operate farm equipment including tractors, planters, combines, trucks, and sprayers
- Assist in crop scouting, equipment and facility maintenance, farm drainage and land improvement
- Assist with loading/unloading grain
- Assist in farm organization and operation logistics
- Assist in all areas of the operation depending on the needs for the season
- Work longer hours and days during peak season
