A family owned farm located in Fair Oaks, IN is looking for a motivated individual to join their team full-time. They grow corn silage, beans, and alfalfa. Work is done in all seasons of the year and often requires the handling of dairy manure. This position requires experience in one of three areas:

- Tractor or sprayer operation
- Semi driving (CDL not required)
- Center pivot irrigation management

*Experience in multiple of these areas preferred*

Job responsibilities will vary and are often centered around the areas above. They offer competitive pay based off experience and have health insurance available. This position can be for May or December graduates. If interested please send your resumes to aopp@purdue.edu by October 5th to apply.
