

JBS – Summer Internships

MAKING YOUR
WORLD STRONGER

Opportunities in Plant Operations, as well in Live Operations, Quality Assurance, Human Resources, and Maintenance. We primarily target juniors, but we accept sophomores as well.

Our internship program is very hands on and aims to provide students with real life experience. Our goal is to transition our interns to full time employees and JBS Management Trainees and for them to leave our company at the end of the summer with an offer in hand.

If interested in a summer internship with us, please click on the link and apply.
