Landmark Enterprises, LLC is an agricultural consulting firm located in Columbus, Indiana. We provide consulting and compliance assistance to livestock and crop producers, including assistance with state and county permitting, nutrient management planning, pest management planning, onsite compliance inspection assistance, and several other services.

Currently, we are seeking a Project Specialist to join our team. The Project Specialist will be responsible for completing all necessary paperwork for permit applications, nutrient management and pest management plans, and other compliance paperwork as needed. With the assistance of software, the Project Specialist will be responsible for calculating nutrient content of soil and manure for analysis and inclusion in compliance paperwork. Research will be required for this position on topics such as zoning requirements, state and county regulations, exception requirements, etc. This individual must be detail-oriented and focused. He or she must be self-driven and have the ability to work independently. This position is very deadline driven, so organization and time management are key. This position will have interaction with agricultural producers, so good communication skills are also needed.

Interested parties should email their resume and cover letter to michelle@le4ag.com.
