Drug Discovery and Development Internship
Eli Lilly and Company

Company Overview

Who We Are:
Lilly is a global healthcare leader that unites caring with discovery to make life better for people around the world. We’re a Fortune 500 company, determined to bring life-changing medicines to those who need them and give back to communities through philanthropy and volunteerism. To learn more about Lilly, please visit us at http://bit.ly/lillycareer

Lilly offers:
- A Purposeful Career—bringing together people who discover and deliver life-changing medicines that improve peoples’ lives around the world.
- A Balance of Work and Life—creating an environment for employees to be productive in both their lives and their work. An Opportunity for Growth—providing opportunities for each individual to develop and advance professionally.
- A Diverse Culture—committed to uniting individuals across cultures, and developing a comfortable, connected, environment that values diverse thought.
- A Vibrant Community—headquartered in downtown Indianapolis, Ind. — Time Magazine ranked Indianapolis a top 10 city to start a new career in. Read more about living in Indianapolis at downtownindy.org.

We’re looking for:
- Highly motivated and driven leaders
- Individuals with integrity, excellence and respect for people.
- Individuals who want to make a difference in someone else’s life.

Responsibilities
Intern Overview:

Lilly’s internship program provides science students the unique opportunity to work in the Drug Discovery or Development areas of a world-class pharmaceutical company. Our internship program helps us identify future technical talent and leaders, and allows interns to gain technical expertise and understanding of the drug development process, experience our culture and see the variety of career paths available at Lilly.

We are looking for students majoring in biology, chemistry, biochemistry, chemical engineering, pharmaceutics or a related discipline to join our team of scientists. As an intern you will have an opportunity to diversify your skillset while contributing to cutting edge research.
Your work or project may include but are not limited to the following:

- Bio assay development
- Biological testing of compounds
- Organic and Peptide synthesis
- Chemical Modality
- Molecular biology
- Protein expression
- Purification, characterization, analytical methods and formulation
- Flow chemistry
- Project management
- Drug product design and performance
- Drug product manufacturing process development

The internship positions are located at our corporate headquarters in Indianapolis, IN. Each intern will be assigned a project providing the opportunity to actively contribute to the Discovery or Development organization, build a more comprehensive understanding of the pharmaceutical industry, and the role Eli Lilly and Company scientists play in delivering innovative medicines to patients.

**Basic Qualifications**

**Requirements:**
- Enrolled in an undergraduate program with a concentration in Biology, Chemistry, Biochemistry, Pharmaceutics, or a related discipline.
- Expected graduation by August 2020
- Qualified candidates must be legally authorized to be employed in the United States. Lilly does not anticipate providing sponsorship for employment visa status (e.g., H-1B or TN status) for this employment position

**Additional Skills/Preferences**

**Additional Skills:**

**Desired Experience:**
- Team player with excellent communication skills
- Previous laboratory or pharmaceutical research experience

You don’t have to be an expert in the pharmaceutical Industry to join Lilly. First and foremost, Lilly is seeking leaders who have passion; a passion for innovation, a passion for making a difference in people’s lives and a passion for learning, development and global leadership. We seek self-starting individuals who demonstrate decision-making, project management and data analysis skills. Strong problem solving, organizational, and analytical skills are also needed to perform successfully.
**Additional Information**

**Additional Benefits:**

- All interns will be considered for full-time positions based on their internship performance
- Lilly arranges various intern activities including sporting events, dinners, lunch and learns, etc. to provide opportunities for socializing, professional development, and learning more about Lilly.
- Interns will receive a competitive salary and free parking at their work site, as well as access to Lilly’s LIFE fitness center and bike garage
- If the intern's job position requires a move from another location, Lilly will provide subsidized housing

Lilly is an EEO/Affirmative Action Employer and does not discriminate on the basis of age, race, color, religion, gender, sexual orientation, gender identity, gender expression, national origin, protected veteran status, disability or any other legally protected status.
