

Biology Internship Program

As a Biology Intern for PowerPollenSM, the primary responsibility will be to execute precise biological experiments to aid in process and technology enhancement and improvement.

We are seeking individuals that are highly organized, willing to adapt to changing work conditions, self-motivated with a positive attitude, strong aptitude for problem solving & innovation and comfortable working independently or as a collaborator with high performance teams.

Responsibilities:

- Apply best practice laboratory skills utilizing various media, sterilizers, stereoscope, microscope and other related microbiology tools and techniques
- Ensure experimental methods are followed properly by reviewing and understanding protocols and objectives
- Keep detailed record of activities and process modifications and produce reports and data summaries
- Assist in preparing for discussions with company leadership on key areas of accountability, summer field and lab observations, improvement opportunities and season end internship overview
- Become familiar with and follow all safety protocols and encourage other team members to do the same
- Driving company owned and leased vehicles safely, potentially assigned to tow/haul

Requirements:

- 2+ years college level academics preferably agriculture or biology related
- Familiarity with the seasonality of agriculture and commit to the in-season time requirements including long days and weekends (typically July & August)
- Capable and interested in working in fast-paced and diverse environments that includes indoor lab conditions and outdoor agricultural field conditions including high heat & humidity, insect exposure, uneven terrains, narrow and sight limited workspaces with active agricultural equipment in operation
- Willing to travel as needed (primarily Midwestern US)
- Willingness to cross-train for other jobs within the organization as needed
- Ability to walk, stand or sit for prolonged periods
- Ability to drive field / off-road vehicles for prolonged periods
- Able to maintain confidentiality and protection of PowerPollenSM critical and proprietary assets including systems, equipment and knowledge
- Valid driver's license with good driving record
- Prior farm, field or agricultural work a plus
- Ability to lift up to 50 lbs
