Hi All,

A great internship opportunity with USAID, please share it with students / student groups who may be interested in applying.
The Deadline is a bit tight, but is certainly doable.

**USAID Pathways Internship Program**

The USAID Internship Program (Summer 2020) is designed to provide Interns with substantive work assignments, which expose them to the benefits of a Federal career. The work assigned in most bureaus or offices varies. Typical assignments include a variety of research projects, writing program memoranda, drafting documents, facilitating meetings and/or special events, performing analytical work, attending program discussions in the Agency and/or at the Department of State, communicating on USAID program issues, and performing other duties as assigned. In previous summers interns with scientific and technical backgrounds worked on issues such as climate change, biodiversity, natural resources management, global health, food security, the application of mobile technologies and/or geospatial analysis for development.

Interns are assigned to work in offices and bureaus throughout the Agency. Interns in all areas are expected to perform some assignments that are administrative in nature.

Opening date: 01/22/2020
Closing date: **01/28/2020** (Or once 500 applications have been received.)

Apply and learn more: [https://www.usajobs.gov/GetJob/ViewDetails/557240800](https://www.usajobs.gov/GetJob/ViewDetails/557240800)

Thanks

Pallavi
