I am visiting scholar from China. I graduated at water resource planning and utilizing engineering from the University of Hehai. I have been engaging water resource teaching since 1998.

New Scholar on the Block

Visiting Scholar: DongLing Cheng

Title: Visiting Scholar

Host Professor(s): Bernard A Engel

Duration: Tuesday, September 05, 2017

Time: 12 months

Location: ABE 301

Research Interest in ABE:

My speciality is water resource. I will learn from Professor Engel and his group to acknowledge about this area, such as prediction method of runoff, modeling water resource condition of small area.

Application:

I will do some work about water resource modeling. It use model to become water recycle to study rain and runoff, research the water quantity and water quality. My impact is learn much more math method and math application software.
