**Patents**

[1] “Pharmaceutical Materials and Methods for Their Preparation and Use”, Inventors: Jerry Lewis (Eli Lilly), Bart Kahr (Univ. of Washington), Jean Chmielewski (Purdue Univ.), P-99050.00.US, awarded 2006.

**Invited Lectures**

[2] *Next Generation Therapeutic Targets: Protein-Protein Interactions and Multidrug Resistance*, Department of Biochemistry, Purdue University, March 28, 2006.

[7] Next Generation Therapeutic Targets: Protein-Protein Interactions and Multidrug Resistance, Department of Biochemistry, Purdue University, March 28, 2006.

[18] Next Generation Therapeutic Targets: Multidrug Resistance and Regenerative Medicine, Weldon School of Biomedical Engineering, Purdue University, February 18, 2009.

[19] Next Generation Therapeutic Targets: Multidrug Resistance and Regenerative Medicine, Department of Chemistry, Brigham Young University, March 5, 2009.

[22] Next Generation Therapeutic Targets: Multidrug Resistance and Regenerative Medicine, Department of Chemistry, Indiana State University, October 27, 2009.

[23] Next Generation Therapeutic Targets: Multidrug Resistance and Regenerative Medicine, Department of Chemistry, Marquette University, December 4, 2009.
