Civil Engineering Head Search Candidate

William P. Schonberg, Ph.D., P.E.
Professor and Chair
Civil, Environmental, and Architectural Engineering Department
University of Missouri-Rolla

Dr. William Schonberg is the Chair of the Civil, Environmental, and Architectural Engineering Department at the University of Missouri-Rolla. His research activities over the past 20 years have focused on studying the dynamic response of various structures and structural components, materials, and systems under blast and high-speed impact loading conditions. He received his BSCE degree from Princeton University in 1981, and his MS and Ph.D. degrees from Northwestern University in 1983 and 1986, respectively. Dr. Schonberg joined the faculty of the University of Alabama-Huntsville in 1986 and rose through the ranks to become Professor and Chair of the Civil and Environmental Engineering Department. In 1999 he joined the faculty at the University of Missouri-Rolla as Professor and Chair of the department. Dr. Schonberg was recently recognized for his technical contributions to civil and mechanical engineering through election to the rank of Fellow in both the American Society of Civil Engineers and the American Society of Mechanical Engineers.

Thursday, May 4, 2006
9:00 – 10:00 am
CIVL 1129

Reception immediately following in Civil 1129.

Dr. Schonberg is a candidate for the School Head position in Civil Engineering at Purdue University.
