

CIVIL ENGINEERING CO-OP CALLOUT

WEDNESDAY, JANUARY 17, 2024

HAMP G212 | 5:00-6:00 P.M.

Considering co-op? Come join us at our info session to learn more about the opportunities available! Offering a great deal of flexibility!

"The co-op experience provided me with insight and confidence about the job field I plan to pursue. During each rotation, I overcame various struggles and compounded my knowledge. My co-op helped me grow as a person, student and professional. I recommend that everyone should complete a co-op before they graduate."

—ALANA DeVILBISS—

"Coming into this co-op, I was a freshman with zero experience other than CGT 164. Now I'm creating, correcting and submitting real construction plans that will be built later down the line. By participating in the co-op program, I gained so much professional industry experience. It gave me a massive opportunity to grow."

—ABINEYAN KRISHNAMENDON—
