Civil Engineering Curriculum Flowchart

CONSTRUCTION Engineering Concentration

Beginning
Fall 2023

SEM 1
MA 16500 4 cr.
Calculus I

CHM 11500 4 cr.
General Chemistry I

ENGL 10600 4 cr.
Written Comm. Core

ENG 13100 2 cr.
Ideas to Innovation I

SEM 2
MA 16600 4 cr.
Calculus II

PHYS 17200 4 cr.
Modern Mechanics

SCI Select 3 cr.

COM 11400 3 cr.

SEM 3
MA 26100 4 cr.
Multivariate Calculus

PHYS 24100 3 cr.
Electricity & Optics

CE 29700 3 cr.
Basic Mechanics: Statics

ENGR 13200 2 cr.

SEM 4
MA 26500 3 cr.
Linear Algebra

CE 21101 3 cr.
Thermal Energy & Sciences in CE

CE 20300 4 cr.
Geomatics

CM 16400 2 cr.

SEM 5
MA 26600 3 cr.
Differential Equations

CE 33500 4 cr.
Materials in Civil Engineering

CE 29800 3 cr.
Basic Mechanics: Dynamics

CE 39800 3 cr.

SEM 6
STAT 51100 3 cr.
Statistical Methods

CE 39800 3 cr.
Engineering System Design

CE 34000 3 cr.
Hydraulics

CE 34300 1 cr.

SEM 7
Basic Sci 3 cr.
(BIOL, EAPS, FNR)
also for STS

TECH EL #2 3 cr.
(Breadth)

CE 38300 3 cr.
Geotechnical Engineering I

GEN ED #1 3 cr.

SEM 8
CE 49800 3 cr.
Senior Design
Pre-req: CE 39201 & CE 39800

TECH EL #5 3 cr.
(Design)

CE 32201 3 cr.
Proj. Control Life Cyc Construc Fac

CE 37100 3 cr.
Structural Analysis

GEN ED #2 3 cr.

Legend:

Red
Required by First Year Engineering

Blue
Civil Engineering Core Courses

Yellow
Technical Electives

Purple
General Education Courses

See Foundational Core STS Requirements

See the other side of this document for Curriculum Notes & other information.

◆ CE 20300 & 21101 can be interchanged between semesters 3 & 4 of sophomore year

*Italicics: suggested Technical Electives listed on next page; total of 30 cr. Required

130 credit hours required for BSCE degree
Curriculum Notes:
1. This flowchart shows the standard CE course requirements and the typical sequencing of such courses. Some deviations, both in courses and sequencing, can occur; students should speak to their advisors or the CE Undergraduate Office for further information.
2. Students should consult the following CE website for guidance on the requirements for Technical Electives* and General Education Elective courses, respectively and the limitations on transfer credits: https://engineering.purdue.edu/CE/Academics/Undergraduate/Current
   *Click on the "Technical Elective Policy", the "General Education Policy", or the "Transfer Credit Policy" on the right side bar to see the .pdf documents. Students may also contact their faculty advisor or the CE Undergraduate Office for further information. In particular, it should be understood that the sequence shown for Technical Electives are listed below. The student is ultimately responsible for knowing and completing all degree requirements.
3. Communication Courses - for Written Communication (WC) ENGL 10600 or ENGL 10800 or SCLA 10100 or other from Written Communication Core list. For Oral Communication (CO) COM 11400 or SCLA 10200 or other from Oral Communication Core list satisfies the First Year Engineering general education requirement as well as the Oral Communication Foundational Outcome. The Lyles School of Civil Engineering, however, requires this course for graduation (subject to core policy rules) and does not consider it to be a general education course. Also refer to: https://www.purdue.edu/provost/students/s-initiatives/curriculum/courses.html
4. The Science Selective strongly recommend by the School of Civil Engineering is CHM 11600. Either CHM 11600 or CS 15900 is suggested. However, we prefer CHM 11600, especially if you are interested in the environmental or water resources side of civil engineering, because CE 35000 Intro to Environmental & Ecological Engr., a technical elective, requires CHM 11600 as a prerequisite. Students using another Science Selective such as BIOL 11000 to meet FYE requirements will still be required to take CHM 11600 or CS 15900 to graduate in Civil Engineering but can use BIOL 11000 for the Basic Science Elective. See advisor for current approved list. Choose starred * courses to meet the Foundational Core STS (Science, Technology, & Society) if not satisfied by other general education courses. Also refer to: https://www.purdue.edu/provost/students/s-initiatives/curriculum/courses.html
5. The Basic Science Requirement courses are chosen from an approved list. Examples include: BIOL 11000 or EAPS 10000*, 10400*, 11100, 12000*, 12500* & 22100. See advisor for current approved list. Choose starred * courses to meet the Foundational Core STS (Science, Technology, & Society) if not satisfied by other general education courses. Also refer to: https://www.purdue.edu/provost/students/s-initiatives/curriculum/courses.html
6. The Lyles School of Civil Engineering faculty recommend ECON 25100 as a Foundational Behavioral/Social Science (BSS) general education course.
7. CE 49800 Senior Design must be taken in a student's final semester before graduation. The only exception to this rule is that students who plan to graduate during a summer session may take CE 49800 during the prior spring semester.

Required for Concentration: (B = Breadth Courses; D = Design Courses)

CE 22200: Life Cyc Engr & Mngt of Constr Fac (B; CON)
CE 37100: Structural Analysis I (B; STR)
CE 38300: Geotechnical Engineering I (B; GEO)

Select one of the following courses:

MGMT 20000: Introductory Accounting
MGMT 212000: Business Accounting

Select one of the following courses:

CE 32201: Proj Cntrl Life Cyc Constr Fac (CON)
CE 52100: Construction Business Management (CON)
CEM 48500 Legal Aspects in Construction Engineering (CON)

Suggestions for Technical Electives: (B = Breadth Courses; D = Design Courses)

CE 35000: Environmental Engineering (B; ENV)
CE 36100: Transportation Engineering (B & D; TRA)
CE 44000: Urban Hydraulics (B & D; HYD)
CE 47000: Structural Steel Design (D; STR)
CE 47900: Design of Building Components and Systems (D; STR)
CE 52000: Construction Project Control Systems
CE 52100: Construction Business Management (CON)

Sequence Requirement: A sequence is defined as a minimum of two (2) technical elective courses from a given CE emphasis area. Each student must complete at least two (2) such sequences of technical electives. Note that completing four courses from a single CE area of emphasis does not meet this requirement; the emphasis areas must be distinct. Certain non-CE designated courses may be used in satisfying this requirement.
