40th ANNIVERSARY EVENTS

Distinguished Speaker Series ........................... 1
Outstanding Alumni Award .............................. 2
Student/Faculty Bowling Night ........................... 3
Art Contest ...................................................... 4
Feature: John Frantz, 1979 Grad ......................... 5
Throughout the year, distinguished guests will be invited to speak in CEM undergraduate and graduate courses. The list of speakers will include experts from both academia and industry.

Guests from academia will speak during graduate courses, providing students with insights into the latest research in Construction Engineering and Management. Faculty and students will have the opportunity to sit down with these experts during Q&A sessions after each seminar.

### 40th Anniversary Distinguished Speaker Series

*Spring semester speakers to be announced in January.*
This year, we will honor one of our CEM alums with the inaugural Outstanding Alumni Award. We have many distinguished alumni, and one who has shown particular excellence in the construction industry will be honored during the spring semester.

The awardee will be honored during the annual Spring Internship Banquet hosted by Beta Tau—CEM’s honor fraternity—on April 4, 2017. Each spring, Beta Tau invites all Purdue CEM students, representatives from industry firms that sponsor our student interns (who are required to complete three internships before graduation), and distinguished guests to the banquet.

This year, distinguished guests will be the recipient of the Outstanding Alumni Award—currently being determined by a faculty committee—and keynote speaker Jim Hallock, a sustainability advocate in the construction industry and founder of Earth Block International. We will also be inviting our 40th Anniversary Distinguished Speaker Series guests back to campus for the banquet, along with CEM’s first class of 1979 graduates.
STUDENT/FACULTY BOWLING NIGHT

We love getting our students and faculty engaged, and what better way to do that than a friendly bowling competition? Bowling night will take place at Rack and Roll in the Purdue Memorial Union, and the bowler with the highest score will win a prize!

When: Friday, December 2nd 7-9pm

Where: Purdue Memorial Union Rack and Roll

What: Join the CEM family for a fun night of bowling!

Why: Celebrate CEM's 40th Anniversary at Purdue

Details:
- Free, unlimited bowling
- Rent your own shoes ($2.25)
- Students, faculty/staff, and faculty/staff families invited
- Art competition to take place (see below)
- Bowler with the highest score will receive a prize at the end of the night!
ART CONTEST

Time to get creative! Build or create a work of art to celebrate CEM!

Eligibility: All CEM students, faculty, and staff may participate

Themes: CEM, Construction, CEM 40th Anniversary

Judging and Winner: Artists will bring their art to Bowling Night on Friday, December 2. Everyone who attends Bowling Night will vote for their favorite work of art. Winner will be announced at 8:30pm. Winner will receive a prize and the winning artwork will be displayed in the CEM main office!

Media or Techniques: Any of the following media or techniques may be used:
- Paint (watercolor, tempera, poster, acrylic, etc.)
- Sculpting materials (clay, papier-mâché, construction materials, etc.)
- Drawing materials (pencil, charcoal, colored chalk, pastels, oil pastels, colored pencils, markers, etc.)
- Collage materials (cut and glued papers, such as construction paper, tissue paper, wrapping paper, aluminum foil, etc.)
- Prints (handmade stencils, gadget printing, collographs, block prints, etc.)
- Original digital illustration
- Photography
- Mixed media

Size: Your art can be as big or small as you want. The only rule is that it must be mobile or able to be carried, as you'll need to bring it to Bowling Night.
FEATURE: JOHN FRANTZ, 1979 GRADUATE

John Frantz was one of the first students to enroll in the CEM program in 1976 and was one of two members of the first graduating class to receive a Bachelor of Science in Construction Engineering from Purdue in 1979.

In the Fall 2016 issue of CEM News, published in November, Frantz will be the main feature, celebrating CEM’s 40 years of excellence. Look for insights from Frantz on what it was like to be a part of CEM in the late 70s and how his degree has helped him purchase and run a successful business in the construction industry.
