My office works with the search committees at the Rochester Institute of Technology to identify African Americans, Latina/o Americans and Native Americans (AALANA) and women scholars as potential candidates for faculty positions. I am currently recruiting for the following positions within our B. Thomas Golisano College of Computing and Information Sciences (http://www.rit.edu/gccis)

**Department Chair (Tenured), Software Engineering**
The successful candidate will be ready to assume leadership and administrative responsibilities. A key responsibility is to lead the department in further expanding its research profile. Applicants are required to have a Ph.D. or equivalent in a related field and experience commensurate with that of a full professor. Applicants must have demonstrated research excellence in any area of software engineering, a track record of external funding, and a strong commitment to undergraduate and graduate education.

**Assistant Professor (Tenure-Track), Computer Science**
The Department of Computer Science at the Rochester Institute of Technology invites applications for a full-time tenure-track assistant professor position in the area of data science, with emphasis on data analytics, machine learning, or data-intensive computing. Successful applicants are expected to contribute to the scholarship of the department and college through externally funded research and through teaching and mentoring of BS, MS, and PhD students.

**Assistant Professor (Tenure-Track), Computer Science**
The Department of Computer Science at the Rochester Institute of Technology invites applications for a full-time tenure-track assistant professor position in one of the following areas: (1) pervasive computing, including cyber-physical and robotic systems, (2) theoretical aspects of network, data, or social sciences, (3) computer graphics, specifically applied perception in graphics, virtual worlds, or visualization. Successful applicants are expected to contribute to the scholarship of the department and college through externally funded research and through teaching and mentoring of BS, MS, and PhD students.

**Assistant Professor (Tenure-Track), Interactive Games & Media**
RIT’s School of Interactive Games and Media seeks candidates whose work demonstrates proficiency with code and sensitivity to aesthetics. Candidates should have experience creating a range of interactive media, as evidenced by published research, teaching experience in relevant university programs, a portfolio of created works, and/or credited roles in commercial media or games.

**Lecturer (Non-Tenure-Track), Computing Security**
The Department of Computing Security invites applications for a Lecturer position in computing security and related areas beginning fall 2015. The successful candidate will be able to teach a broad range of courses in systems and network security, forensics, malware, reverse engineering, or other related areas. The department offers a Bachelor and a Master of Science degrees in Computing Security. This is a one-year position.

**Lecturer (Non-Tenure-Track), Computer Science**

Lecturers contribute to the academic mission of the Computer Science Department and will be responsible for course preparations, formal classroom and lab teaching, new lecture and lab course development in the areas of introductory and core Computer Science. Lecturers are also responsible for student mentoring and contributing to the advancement of the Department through service assignments. Lecturers engage in professional growth through activities such as further study, writing, lecturing, and active participation in professional societies.

Please use the links above to review the complete job description, and apply for the position.

Our office works directly with the search committees to refer potential African Americans, Latina/o Americans and Native Americans (AALANA) and women candidates. Interested candidates can email me a copy of their updated CV at losofr@rit.edu, or call me at 585-475-5775.

Thanks,
Lorraine

**About the Office:** Established in 2002 to serve as a resource for minority and women doctoral students, and faculty interested in becoming an educator at Rochester Institute of Technology. Our current efforts are focused on expanding the pool of applicants by attracting underserved populations, chiefly African Americans, Latina/o Americans and Native Americans (AALANA) and women, to enrich our diverse educational community.
