**Cc:** Gauger, Steve A  
**Subject:** Safety Update #12: Slips, Trips and Falls

ChE Faculty, Staff and Students,

Purdue and REM are launching a preventative injury program. With winter weather approaching soon, the current focus is on prevention of injuries caused by **slips, trips and falls**. The two most important preventative measures that you can take are to wear correct footwear for winter conditions and to be aware of and report unsafe surfaces. The phone number to report unsafe surfaces on campus is **494-3087**.

Slip, trip and fall magnets will be distributed to the ChE safety committee and ChE clerical staff – to help with reporting. If you would like a magnet, please let me know.

Let's have a safe winter in ChE.

Linda
