

Chemical Engineering Course Exception Form

The Davidson School of Chemical Engineering faculty have devised and approved a curriculum adhering to accreditation guidelines while upholding the integrity of a conferred Purdue University Bachelor of Science degree. It is expected students adhere to the outlined degree requirements to meet the foundational outcomes of the major coursework and fulfill expectations as set by the Accreditation Board of Engineering and Technology, ABET.

Should a student be unable to create a workable schedule or an extenuating circumstance be presented, the student must write a statement, in a professional format, indicating the reason or hardship for the request of an exception to such academic policies. Additional documentation of support for the request is encouraged toward understanding the situation in full. All requests must be submitted to Karissa Raderstorf, Associate Director of Undergraduate Education in FRNY G041 for consideration prior to registration.

(Example of exception requests include but are not limited to enrolling in PHYS 27200 in lieu of PHYS 24100, CHM 25500/25501 in lieu of CHM 26100/26300, CHM 25600/25601 in lieu of CHM 26200/26400, etc.)
