

From Molecular to Product and Process Engineering

18
ISCRE

18th International Symposium on Chemical Reaction Engineering

The Palmer House Hilton Hotel
Chicago, Illinois, USA
June 6-9, 2004

Chicago, famous for its architectural beauty, the splendor of Lake Michigan and its cosmopolitan character, will host the 18th International Symposium on Chemical Reaction Engineering (ISCRE 18).

The scientific theme, "From Molecular to Product and Process Engineering," will cover a broad range of topics, encompassing traditional reaction engineering areas as well as newer and emerging fields such as microreaction technology and fuel cells. Emphasis will be placed on the use of fundamentals in multiscale approaches and the rational application of reaction engineering principles to solve important societal and technological problems.

Organizing Committee

Arvind Varma

University of Notre Dame
Symposium Chair

Bala Subramaniam

University of Kansas
Symposium Co-Chair

Kurt M. VandenBussche

UOP LLC
Symposium Co-Chair

Michael P. Ramage

ExxonMobil
Development Committee Chair

Symposium Secretariat

ISCRE 18 Secretariat
UOP LLC
