

Get your lab involved with the new glove recycling program!

Join us to learn more and get started in the RightCycle program

October 25, 12:00 p.m.
Forney Atrium

Overview of the RightCycle program:

Apparel items, eyewear, and nitrile gloves are worn in your facility.

Used products are collected and shipped to Kimberly-Clark recycling centers.

Used products are sorted and processed into plastic pellets.

Materials are molded into new plastic products and durable goods.

Lunch will be provided to participants
