

Are you passionate about sustainability? Would you like to learn more about sustainability initiatives in industry? Did you know there are advances in plastic recycling that go beyond mechanical recycling? Have you heard about the PureCycle innovative way to turn plastic waste into a renewable resource?

The ChE Sustainability Committee

is inviting you to learn more about advances in plastic recycling and the ground-breaking PureCycle patented process for recycling polypropylene plastic waste to transform it into ultra-pure recycled resin.

Come and learn from experts in the field
from Procter & Gamble
