

Ten Mistakes When Learning Probability

Prof Stanley Chan

School of Electrical and Computer Engineering
Purdue University

1. It's Just Another Math Class To Check My Pre-Requisites

2. Probability = Math for Gambling

3. To Get a Job in Machine Learning, I Just Need PyTorch.

4. Every Problem Has a Recipe

5. You Didn't Teach Problem 3 in the Lecture

6. I can Learn it in One Week before the Exam

7. Watch Videos Later

8. If I Spend 60 Hours / Week, I Will Get an A.

9. Don't Ask Me Word Problems

10. Feathers Instead Wings
