Raytheon, an employer on AfterCollege, would like to share the following opportunities with Purdue Department of Electrical & Computer Engineering students. If you haven't already, we would appreciate it if you could forward the information below to your students and members so they can consider it and apply if they are interested.

Thanks so much,
The AfterCollege University Relations team

CAREERS AT RAYTHEON

ARE YOU READY TO TAKE ON A NEW CHALLENGE?

Are you interested in making the world a safer place? Explore a career with Raytheon.

Our best-in-class workforce is at the heart of everything we do — driving our competitive advantage across engineering, intelligence, training, cybersecurity solutions and beyond. Joining the team will allow you to grow your talents and abilities as you protect important customers around the world, from governments to international businesses.

For your contributions, you will be recognized and rewarded with a comprehensive and competitive benefits package. Even at the beginning of your career journey, you will be supported in a variety of ways, including a flexible 9/80 work schedule that gives qualified employees every other Friday off.

As you start planning for your future, we invite you to take a closer look at our range of post-grad opportunities.

Begin your career with a world-class team and a world-class company. Use your abilities to make the world a safer place with Raytheon.
