

***EXCITING EMPLOYMENT OPPORTUNITY FOR
EXPERIENCED COMPUTER VISION
RESEARCHER***

Oqullo has an exciting full-time employment opportunity for someone with exceptional development and research skills in the fields of Computer Vision and Machine Learning. Co-founded by two Purdue ECE undergraduates, Oqullo was recently awarded an SBIR Phase I grant from the NSF to develop a system capable of analyzing pedestrian foot-traffic patterns on large properties. Expertise in working with person detection and video is a bonus, but any experienced ML/CV researcher is welcome to apply. Qualified candidates will be self-motivated, strong teammates, and thrive in dynamic environments.
