

Applications are open for a skilled and motivated research assistant to work at the Bindley Bioscience Center (BBC) at Purdue University. This opening is for a half time research assistant appointment. Candidates must be pursuing a Master's Degree (1st year) or Ph.D. in Computer Science, Computer Technology, Engineering, Bioinformatics, Biology or a closely related discipline.

The candidate should have practical experience with:

- A scripting language (Python, PERL, R)
- Web development
- Data handling, setting up and implementing algorithms and workflows

Responsibilities include implementing new features for Mass spectrometry data analysis. The ideal candidate must be interested in learning basic concepts of Mass spectrometry and data analysis.

Please, apply if you are available to work at least 20 hours/week and is available to start to work this summer semester.

Interested applicants should send a CV or resume to Tiago Sobreira (sobreira@purdue.edu).
