

# Volunteers Needed!

Participate in a study to monitor physiologic signals before and after your COVID-19 vaccination and receive a gift card for your time.

Participation involves:

- Wearing a smartwatch and a skin patch on your chest for up to 14 days
- Following simple charging instructions

Eligibility:

- Be 18 years of age or older and have scheduled your COVID-19 vaccination
- No implanted defibrillator or pacemaker
- No known allergies to adhesives
- Ability to apply and utilize an adhesive patch and smart watch
- Not currently enrolled in another study which may limit your participation
- Ability to communicate in English

Contact Jennifer Anderson at <ander934@purdue.edu> if you would like to join!

*Continuous Physiologic Monitoring for Immune Response via Wearable Sensor Data*  
Principal Investigator: Dr. Craig Goergen  
IRB#: IRB-2021-453
