

Dear Colleague,

The [Computer Engineering Computer Science Department](#) at California State University Long Beach (CSULB) has tenure-track faculty openings. All areas of computing will be considered. However, preference will be given to candidates with strong background in either areas of ***Data Science, or Cybersecurity, or Software Engineering, or Natural Language Processing***, or other closely related fields.

Applications can be submitted at the PageUp website using the below link:

<https://careers.pageuppeople.com/873/lb/en-us/job/520469/assistant-professor-of-computer-science>

Would you please forward this position announcement to any potential candidates in your research group or department?

The College of Engineering at CSULB is committed to excellence in undergraduate and graduate education and research. The Computer Engineering Computer Science Department provides exciting opportunities for close collaborations with current faculty, industry and local partners, and other departments on campus. It is the largest department in the college and one of the largest departments on campus with around 1800 undergraduate and 400 graduate students. CSULB is located on a 323-acre campus in proximity to Southern California beaches with strong, dynamic, diverse industry. CSULB is one of the largest universities of the California State University system, the largest four-year public university system in the United States.

The effective start day is August 17th of 2023. Candidates need to have a Ph.D. in Computer Science, Computer Engineering, or a closely related field at the time of application or official notification of completion of degree by August 1, 2023. The review process will begin on December 5th of 2022. The position remains open until filled.

Please do not hesitate to contact me at mehrdad.aliasgari@csulb.edu with any questions.
Thank you for your help!

Mehrdad Aliasgari, Ph.D.
