Scientific Writing

Workshops for international students

Spring 2023 Workshops

Wednesdays 2-3:15pm Online

www.purdue.edu/place email: place@purdue.edu For details and registration

Workshops are open to all international students. Registration required.

This writing workshop series is for international students who want to be to become more confident, accurate, and efficient in scientific research writing. Each workshop focuses on different but related topics, skills, and strategies to help participants improve their writing. Workshop topics include understanding scientific writing and its important features, writing an effective title & abstract, describing visuals in a scientific paper, and revising your own scientific work.
