About Us

- We are a national organization based out of Chicago, providing services and software to accelerate the data and analytics journey for our clients.
- The Nousot Ecosystem delivers simple and secure data science, data engineering, and ad-hoc analytics services to any cloud in minutes. Subscribers select from a series of customizable analytics solutions and capabilities to meet their business needs.
- Our team members have guided many of the world's largest companies on their data and analytics journeys.

nous + ot → nousot
derived from the as in "robot" is an instance of
Greek word meaning automated intelligence
"mind" or "intellect"

Why consider a career with Nousot?

Our core values are **Innovation**, **Inspiration**, **Inclusivity**, and **Integrity**, and we achieve together in a highly collaborative organization. We foster a curious environment and provide continued training, mentorship, and rotation opportunities in the field of data analytics. Nousot is a high-growth company with a start-up mentality seeking passionate doers who want to develop cool solutions and have fun while at it.

IT Management Internship Program (Part-Time)

Our IT Management internship program provides an opportunity for an individual seeking a career in IT management to develop skills related to technology and security across cloud administration, data privacy and compliance, device management, and technical support. This role has the option to extend past the internship period.

Internship Program (Part-Time & Full-Time)

Our "Innovate" internship program is for individuals with educational experience in a curriculum related to data analytics or software engineering. This program provides an opportunity to learn from thought leaders while gaining a glimpse into a "day in the life" of an Advance associate. Interns work flexible hours from home or in the office to complete real analytics projects and to interact with leaders, team members, and clients.
