Purdue IRB# 2026-00000519

Research Study Participants Needed!

Study Title

Expertise Match and Creative Problem Solving: The Role of Question Depth in Evaluating Depth of Understanding (Department of Psychological Sciences)

Eligibility

- Purdue students with a major in the college of engineering or health & human sciences (not including tourism).
- Purdue students in at least their third year of undergraduate education, including graduate students.

If you would like to participate or receive more information about this research study, please contact Leila Foudil at ccnlab@purdue.edu

Study Information

We are seeking to investigate depth of understanding of creative problem-solving tasks using question asking and across domains.

You are invited to participate and complete problem-solving tasks and generate questions in a single, 1 hour session.

Participants will be compensated for their time.

Principal Investigator: Sébastien Hélie, PhD.
