2017 Research Experience for Undergraduates (REU)  
Interdisciplinary Research Experiences in Robotics for Assistive Technology  
JUNE 26 – AUGUST 18, 2017

**Program Overview**
- Funded by National Science Foundation (NSF), focuses on robotics related research.
- 8 week program - $4,000 stipend, housing and meals allowance, and travel expenses.
- Sample research projects include: human-robot communication, robotic assistive technology in manufacturing, mobile and wireless control.

**Eligibility**
- U.S. citizen or permanent resident.
- Electrical and Computer Engineering, Mechanical Engineering, or Biomedical Engineering major with a 3.0 or higher GPA.
- Underrepresented groups are strongly encouraged to apply.

**Application Deadline:** *March 15, 2017*
- Please apply online at: [http://www.uwstout.edu/robotreu/apply.cfm](http://www.uwstout.edu/robotreu/apply.cfm)
