Sales Application Engineer Trainee (4 Openings)

The Drive and Control Technology Division in North America develops internationally leading products, systems and services for machine tool and factory automation applications.

Bosch Rexroth is the world leader in the drive, motion and control technologies that power today's most advanced manufacturing systems. We combine a passion for solving complex engineering challenges with unmatched applications expertise across a broad range of industries. Our proven machine and automation products equip you to operate platforms engineered to the highest levels of energy efficiency, productivity, flexibility and long-term value.

Your tasks:

The positions are for entry level Technical Sales & Application Engineers within DCUS-MA (Drive Control United States - Mobile Applications) Branch Management organization. Apply and sell our Bosch Rexroth product portfolio in the Mobile Market. Participate in a trainee program, which will include extended training periods at various Bosch locations abroad. Train for periods of up to six (6) months at each location.

Your profile:

Bachelor degree and/or equivalent in Mechanical, Electrical Engineering or similar disciplines with the ability to travel with extended stays at our various facilities for product and application training in the USA and abroad.

Rexroth. Motion & More.
Apply now online!

Date: 02/13/2015
Reference no.: 55677519
Location: Fountain Inn, SC
Nation: USA

Use our online application form and your information will reach us safely and quickly.

If you need a reasonable accommodation for the online application due to disability, call 1-855-685-0010 and leave your contact information and position of interest. Only messages requesting accommodation with the online application due to a disability will be returned.
