

Research Experiences for Undergraduates in Integrated Nanomanufacturing

BOSTON UNIVERSITY

Apply because you can:

Program Dates:
June 8 - August 14, 2015

- Build nanodevices for biomed, electronic & optical engineering apps
- Develop your research skills toward future careers and grad school
- Experience immersive, mentored research in state-of-the-art labs
- Meet grad students from Boston area universities

Strongly encouraged to apply if you are:

- At 4-yr college without STEM grad programs
- Community college students
- Underrepresented groups in STEM
- Veterans of U.S. Armed Services

- **\$5,000 + free housing + travel**
- 10-week mentored summer experience
- Apply at: <http://www.bu.edu/photonics-reu/>
- Deadline - March 15, 2015
